NORTH EASTERN DISTRICT RESOURCE PLAN

- North Eastern District Resource Plan (NEDRP) is a unique programme taken up by NESAC in close collaboration with SRSACs of NE region. NEDRP is sponsored by the Ministry of DoNER/NEC with an objective to strengthen the e-Governance policy.
- Features planning inputs such as afforestation areas, horticulture, double crop, check-dam locations, etc.
- Successfully launched in 11 districts of Meghalaya in phase-1.

MAJOR HIGHLIGHTS

- Two Portals targeting the state level (SBIK) and the District level (NEDRP).
- To Cater to the Needs of Secretaries of Line Departments Thru SBIK, and Working Level for DC Office to all Line Departments Thru NEDRP.
- To Assist in Preparation of Detailed Project Reports (DPR), Planning at State to District Level.
- Integration of all Natural Resource and Other Ancillary data in One Portal.
- Easy to Visualize and Take Appropriate Decisions.

MAJOR BENEFITS

- Quick and Improved DPR Preparation Leading to Easy Project Approvals.

www.nedrp.gov.in

- NEDRP provides district resources atlas in the form of web-based Decision Support System (DSS) for micro-level/decentralize planning.
- NEDRP is planned to be operational in 25 selected districts of NER in the offices of DC Offices/Line Departments. NEDRP is now operational in all eleven districts of Meghalaya.
- NEDRP is now becoming more relevant for planning and management of developmental projects like Integrated Watershed Management Plan (IWMP) and can deliver more effective information for infrastructure development and disaster management support programme.
SPACE BASED INFORMATION KIOSK

The Space Based Information Kiosk (SBIK) is one of the most significant programmes taken up by NESAC for each of the state of NE region. SBIK is sponsored by the Ministry of DoNER/NEC and executed by NESAC, in collaboration with SRSACs of NE region to support users and Line Departments of respective state Governments for developmental planning. Each of the SBIK is populated with geospatial layers on natural resources, infrastructure, disaster management etc. with proper linkages to the socio-economic data. In addition, it also contains information related to action plans for forest and environment, agriculture, soil conservation, infrastructure, location of engineering structures (check dam) for recharge and to control soil erosion etc. for preparation of detailed project report (DPR) etc. SBIK has numerous GIS tools for data visualization, navigation, analysis and printing of the final map. The statistics for spatial layers can also be generated based on user defined area of interest.

SBIK is conceptualized to strengthen the planning and monitoring mechanism of the projects funded by DoNER Ministry & other Central Government funded projects such as Integrated Watershed Management Programme (IWMP), Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA), Pradhan Mantri Gram Sadak Yojna (PMGSY) etc.

Hon’ble Chief Minister of Assam Shri Tarun Gogoi has inaugurated the SBIK portal for the state of Assam on 30th May, 2014 in Guwahati, Assam. NESAC has then installed the smart Touch-Screen based system containing SBIK portal in the Office of Hon’ble Chief Minister of Assam. Other SBIK portals have been released by the respective Chief Secretaries (CS)/Planning Secretaries (PS) of the states of NE region.
