Sub: Announcement of 2nd Two week's course on "UAV Remote Sensing – Technological Advances and Applications" during Nov 06-17, 2017

Dear Sir,

The North Eastern Space Applications Centre (NESAC) was established as a joint initiative of Department of Space (DOS) and the North Eastern Council (NEC). The centre has been providing 17 years of dedicated services in Space Science and Technology for developmental activities of NE region of our country. UAV Remote Sensing is developing at fast pace along with associated sensing technologies and adapting to these platforms offers broad range of solutions for different applications like resource mapping, large scale mapping applications, disaster management etc. NESAC is pleased to announce the 2nd two week's advance course on "UAV Remote Sensing – Technological Advances and Applications", commencing from Nov 06, 2017 to provide in-depth understanding and knowledge in the field of UAV remote sensing and its relevant technologies and applications

The course will focus on the basic of UAV operations, technologies and modes of data acquisition. The processing of UAV acquired imagery for deriving various products such as ortho-rectified imagery, Digital Surface and Elevation models and 3D reconstruction of surface etc. The course is designed for Government Officials / Academicians/ Researchers/ Students/ NGOs/ Private agencies having desirable experiences in geo-informatics and basics in photogrammetry and have interest in latest developments in high-resolution data acquisition techniques and 3D object modelling. A copy of the announcement brochure of this course is enclosed herewith for your kind perusal and also for wider circulation in your Organization/University/Institute. You can register online at <http://nesac.gov.in>. The total seats available are limited to 30. Interested may send their applications or forward through their concern authority. The admission will be given to the eligible candidates on first come first basis.

In case if you need any further information about the programme, please feel free to contact-

1. Shri Victor Saikhom, Course Coordinator, [Ph.: 0364-2308722(O), email: victor.saikhom@nesac.gov.in]
2. Shri Chirag Gupta, Course Officer, [Ph: 0364-2308752 (O), email: chirag.gupta@nesac.gov.in]

Or visit NESAC website <http://www.nesac.gov.in> for further details.

With regards and best wishes,

आपका भवदीय/Yours faithfully

(पी एल एन राजु/P L N Raju)
